Certified Woman-Owned Small Business Partner

Strategic partnership for mission-critical applications

- Software development expertise from design through development to delivery

- SATCOM and DoD domain knowledge streamline operation in hardened environments

- Woman-Owned Small Business partner increases diversity and opens doors to additional opportunities

Alethia can help:

- Engineer a secure user interface around your hardware or firmware implementation

- Unify disparate software systems to aggregate data and combine capabilities

- Build a rapid prototype to showcase your design concept

- Migrate existing applications to the cloud

- Augment your software development team in an agile environment

Testimonials

Steve Williams

Sr. Systems Architect, National Defense Contractor

"We have had the very sincere pleasure of working with the fine professionals at Alethia Software Solutions LLC over the past 14 months. Alethia plays a key role on several of our critical DoD programs, and they bring great attention to detail, energy, innovation, accuracy and quality to all they undertake. Christie Frieg, Alethia CEO, thoughtfully staffs and leads her team, and she is technically astute, professional and courteous in front of our customers. We are extremely pleased with Alethia's technical and business acumen and their close fit into our culture and our customer's cultures."

David Goebel

Sr. Program Manager, National Defense Contractor

"I've been fortunate to work with the professional staff at Alethia Software Solutions LLC over the past several months. Alethia plays a significant role on one of my critical DoD programs. They bring great capability and innovation to all their work. Christie Frieg, Alethia CEO, expertly leads her team. Additionally, she is professional and courteous forward facing with our customers. I am extremely pleased with Alethia's technical and business skill sets and their ability to assimilate into the team ensuring seamless cross flows of information."
